

When you come to Designer's Showcase, your decorating needs receive personal care and attention. Understanding home decorating, fabric characteristics, and how fabrics perform is vital to creating pleasing window fashions. Here you'll find local, hometown, personal service. By working with a small number of select clients, I can provide individual attention and top-quality products built to last for years.

Designer's Showcase is a one-stop shop, from creation to installation. I'll be here to answer your questions well after the sale. Our studio's resource library offers thousands of fabrics from which to choose. And our custom fabric treatments are handmade locally, not machine-made in a factory.

I care deeply about your satisfaction, and take pride in the work we do together. In short, we'll create a space that's unique to your taste and style. I'm looking forward to working with you.
